Who is affected by this policy?

- Children
- Families
- Employees/Educators
- Governing Council
Aim

Our preschool aims to promote healthy lifestyles, good nutrition and the wellbeing of children, educators and families. We also aim to support and provide adequately for children with food allergies, dietary requirements and restrictions and specific cultural and religious practices. This dietary information will also be provided to families so they can plan healthy home meals for their child.

We believe that early childhood is an important time for establishing lifelong, healthy eating habits and can benefit the children in three main ways-

1. Short term: maximises growth, development, activity levels and good health.
2. Long term: minimises the risk of diet related diseases later in life.
3. Good nutrition contributes to good health and wellbeing and this is vital for positive engagement in learning activities.

Implementation

The preschool has a responsibility to help children attending the service to develop good food habits and attitudes. By working with families and all educators, we will also positively influence each child’s health and good nutrition at home. As stated in the National Regulations (Regulation 79 [4]), we recognise that these requirements do not apply to food or a beverage provided by a parent or family member for consumption by their child at the preschool.

Curriculum

Our preschool’s food and nutrition curriculum:

2. Includes activities that provide children with knowledge, attitudes and skills to make positive healthy food choices and learn about a variety of foods available for good health.
3. Includes opportunities for children to develop practical food skills like preparing and cooking healthy food.
4. Integrates nutrition across the curriculum where possible in line with the Early Years Learning Framework and National Standards.
The Learning Environment

Children at our preschool:

1. Have fresh, clean tap water available at all times and are encouraged to drink water regularly through the day
2. Will eat routinely at scheduled break times
3. Eat in a positive, social environment with staff who model healthy eating behaviours
4. Use the preschool garden to learn about and experience growing, harvesting and preparing nutritious foods

Our preschool:

1. Provides rewards/encouragements that are not related to food or drink
2. Understands and promotes the importance of breakfast and regular meals for children
3. Teaches the importance of healthy meals and snacks as part of the curriculum
4. Is a breastfeeding friendly site

Food Supply

Our preschool:

1. Encourages healthy food and drink choices for children in line with the Right Bite strategy
2. Ensures healthy food choices are promoted and are culturally sensitive and inclusive
3. Excludes all NUTS on the premises due to children enrolled with severe allergies (refer to NO NUT policy for further details)
4. Ensures a healthy food supply for preschool activities and events in line with the Right Bite strategy, and limits the use/supply of ‘red’ category foods (sometimes foods), to a maximum of twice per term
5. Displays nutrition information and promotional materials about healthy eating
6. Has the following guidelines for families for food brought from home or provided by staff within preschool time:
FRUIT TIME
Parents and carers are encouraged to supply fruit and vegetables at fruit time to:

- Provide children with important minerals and vitamins
- Encourage a taste for healthy foods

Fresh fruits and vegetables are recommended. Other suggestions include: dried or preserved fruit, yoghurt, cheese, rice cakes and crackers.

LUNCH TIME
Parents and carers are encouraged to supply suitable food to:

- Provide children with important minerals and vitamins
- Encourage a taste for healthy foods

A healthy lunchbox might include a sandwich/wrap/salad/dried biscuits, fruit, yoghurt, vegetable sticks, etc.

Excluded foods include popcorn (due to inhaling risk) and all nuts.
Drink bottles containing water only are encouraged. These may be stored in the fridge. Cordial is not acceptable.

FOOD AND DRINKS PROVIDED TO CHILDREN:

- Parents and caregivers are encouraged to provide healthy food and drink choices in line with the Right Bite strategy
- Staff will ensure that food provided to children by the preschool is in line with the Right Bite strategy

SPECIAL EVENTS e.g. end of year class party:

- Parents and caregivers are encouraged to provide healthy food choices, however ‘red’ category foods may be included in line with the Rite Bite Strategy.

Food Safety

Our preschool:

1. Promotes and teaches food safety to children as part of the curriculum
2. Encourages staff to access training as appropriate to the Right Bite strategy
3. Provides adequate hand washing facilities for everyone
4. Promotes and encourages correct hand washing procedures with children and staff
5. Stores children’s lunches in the refrigerator
Food-related Health Support Planning

Our preschool:

- Liaises with families to ensure a suitable food supply for children with health support plans that are related to food issues

Working With Families, Health Services and Industry

Our preschool:

1. Invites parents and caregivers to be involved in the review of our whole of site food and nutrition policy
2. Provides information to families and caregivers about the Right Bite strategy through a variety of ways including:
   - Newsletters
   - Policy development/review
   - Information on enrolment
   - Pamphlet/poster displays
3. Promotes the alignment of fundraising with the Right Bite strategy
