

Procedure

Table Cleaning

Please note, this policy must be read in conjunction with other relevant policy and procedural information provided on the approved provider's website including:

[First aid and infection control standard](#)

Loxton Preschool Centre aims to develop a safe, healthy and caring environment for both children and adults which complies with all government regulations and both local and departmental policies.

Cleaning tables effectively that children use when eating and working at is important to reduce the spread of disease/infection.

Tables will be cleaned regularly.

Cleaning Methods:

Activity Tables

Inside and outside activity tables will be wiped down daily, or more frequently if required, using warm soapy water and a green sponge. At the end of the day tables may additionally be sprayed with Kildet if desired and air dried.

All tables that will be used for eating at or placing fruit for Fruit Time on will be first wiped down with soapy water using a green sponge. Children may assist with this process. The tables will then be wiped with warm soapy water using a blue sponge by an educator. Food may then be placed on the table.
